

# CANARIE

## GLIF – Tech discussion points

*Tokyo, 11-12 August 2006*

# proposed Tech agenda

## > Monday 16:00-18:00

- Opening and Welcome
- Review of Actions
- GLIF Open Lightpath Exchange Update - Report from each GOLE operator

## > Tuesday 08:30-11:00

- 08:30-09:00 GLIF-Tech activity and web site
- 09:00-09:30 Preparations for SC06
- 09:30-09:45 GLIF Common Framework
- 09:45-10:30 TL1 Toolkit
- 10:30-11:00 Service contracting & Fault Resolution Process

## > Tuesday 11:30-13:00

- Issue Analysis Hybrid Networks
- Discussion about future actions/priorities
- Other business (including next meeting)

# GLIF-Tech activity + website

(1/3)

- > **WG: active pursuit of vision**
  - - we meet only twice a year
  - - have come a long way
  - - but need to increase activity rate

# GLIF-Tech activity + website

(2/3)

## > communication is key

- - but we are all busy earning our salaries
- - need to work smarter

## > a Tech wiki?

- - to minimize barriers to upload of information
- - to collectively work on documents
- - to keep community abreast of project efforts
  - what, when, where, why, how, problem discussion, experience dissemination, roadmap discussion, etc.
- e.g. NDL, TL1 toolkit, UCLP, SC '06 connectivity details, etc.
- - give feeling of ownership to Participants
- - permit better integration with Participants' web sites

# GLIF-Tech activity + website

(3/3)

## > **GOLE calls**

- - usefulness, frequency, chairpersonship, advanced scheduling
- - forum to follow up on action items?

## > **other ideas on how to facilitate, preserve, build on, and increase GLIF activity?**

# SC 2006

- > **who is providing connectivity into the venue?**
- > **how much connectivity?**
- > **from where (GOLEs)?**
- > **what are associated policies?**
- > **what is process to reserve capacity?**
- > **are there critical dates?**
- > **can we post info up on Tech-wiki?**

# GLIF common framework

- > **what is the common framework?**
  - -set of definitions to help us understand each other
  - -need to keep entropy stable when working on tasks
- > **what / where is it?**
  - - <http://www.glif.is/resources/>
  - - <http://www.glif.is/resources/faq.pdf>
- > **what is a GOLE?**
  - what is not?
  - Pacific Wave, Atlantic Wave, CANARIE blue dots

# TL1 toolkit

- > who is looking at it?
- > what are people most interested in doing with this?

# LightPath service contracting and fault resolution process

- > now at version 0.9
- > have some suggestions to improve the document
- > discussion
