T-LEX Update

☆ **Almost nothing on its configuration**
- ASCC was replaced with ASGC

Uncompressed 4K Streaming

☆ **One challenging demonstration**
- ・ By Keio U, NTT, NTT-C, etc
- ・ Kyoto prize ceremony streaming
  - – uncompressed 4k (6Gbps) and compressed 4k (500Mbps)
- ・ Kyoto-Chicago-Prague-Amsterdam-Stockholm
  - – JGN2/CESNET/SURFnet/NORDUnet
  - – Thank you for great contribution!
- ・ Nortel switch problem
  - – RX-4 by U-Tokyo in AMS was used instead
  - – NetherLight/SARA folks performed quick reconfig
- ・ The performance was very successful
  - – Nov 10-11, 2007, just before SC07
  - – People from Nobel Fundation invited

Uncompressed 4K Streaming
