

GOLE SLS

- Task Group set-up in Winter 2008 meeting
- Aim: Service Level Specs template GOLE
- Virtual team:
 - Walter van Dijk
 - Christian Todorov
 - Geoff Lakeman
 - Jim Williams

GOLE SLS topics v0.7

- Availability
 - Service description
 - Service indicator
 - Availability and availabilitypercentage
 - Service reporting
- Outages
 - Service description
 - Service indicators
 - Response time outages
 - Repair time outages
- Performance measurements

Next steps GOLE SLS

- Version 0.7 up for comments with GOLE operators until now
- One topic raised: Node vs. port availability
- Next steps proposed:
 - Create version 1.0
 - Ask each GOLE to fill out template
 - Ask GLIF Secretariat to compile overview
 - Publish data on GLIF web site

Further work

- Lightpath-capable domain SLS, with topics as:
 - Usual SLS topics
 - Lightpath types supported (L1/L2)
- Synchronizing on maintenance windows
- Other topics?
