

# Policy for Dynamic Goles

GLIF Catania

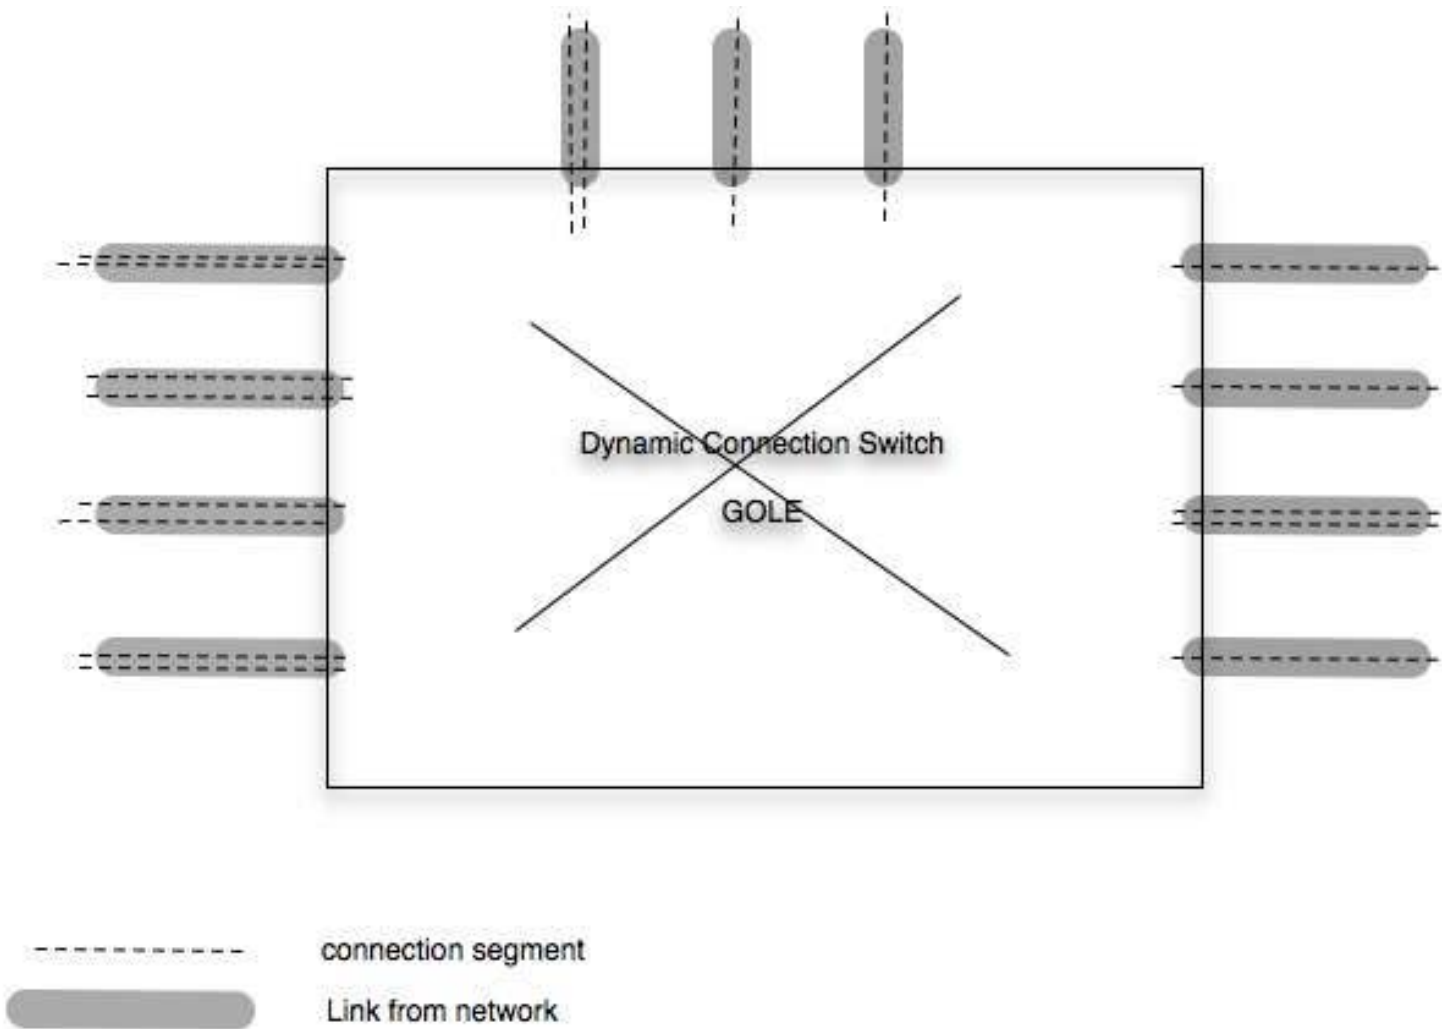

March 2009

John Vollbrecht

# Session Agenda

- Overview of Dynamic GOLE possibilities (John Vollbrecht)
- Internet2 view (Eric Boyle)
- SURFNET view (Bram Peeters)
- University of Amsterdam view (Cees De Laat)
- Step forward(Lars Fischer)

# Overview Dynamic GOLE

# Issues for GOLE

- What kind of connection is handled by Dynamic GOLE
  - I suggest we limit first cut to “VLAN” units
  - Links may be Ethernet, SONET/SDH, OTN
  - Future – add dynamic wave switching
- Policy of GOLE
  - Policy Free
  - No usage charges
  - reservations
- User of Dynamic GOLE
  - GOLE website that users can request
  - WS request interface (NSI eventually)

# Dynamic GOLE

Does GLIF want to support multiple Dynamic  
GOLES
