

MAN LAN/WIX UPDATE

Dale Finkelson

MAN LAN/WIX

- Current Connections of Note:
 - 100G connections – MAN LAN:
 - Internet2 – AL2S
 - ESnet
 - ANA 300G
 - Canarie
 - NORDUnet
 - 100G Connections – WIX
 - Internet2 AL2S and Router
 - ESnet
 - MAX
 - ANA 300G
 - Multiple 10 Gigs
 - Dedicated 100G link between them.

Other Exchange Activity

- Set up an Exchange in El Paso.
 - Currently has a 10G connection to CUDI

Circuit support

- NSI functional at both MAN LAN and WIX
 - Assisted by John MacAully
- SDX
 - Working with Tom Lehman at MAX on developing SDX capability at WIX and later at MAX.
 - Very much a work in progress

Monitoring

- perfSONAR is available.
- MAN LAN and WIX both participate in the Internet2 Performance Assurance activity.
 - See <https://pas.net.internet2.edu>
- On demand is also available.
